SKILLS

- HTML, CSS3, Bootstrap
- Tailwind CSS
- JavaScript
- React & Redux Toolkit
- Git & GitHub
- Media Query
- RESTful APIs
- Webpack

CERTIFICATIONS

Edureka Learning Centre
FULL-STACK WEB DEVELOPMENT
(JavaScript)

LANGUAGES

- English
- Tamil

SUMMARY

To work in an environment where I can utlize and apply my knowledge, skills, and enthusiasm to enable me to grow while fulfilling organization goals. I want to contribute to solving problems that lead to the organization's growth and society betterment.

PROJECT AND ADDITIONAL TASKS

School management system

- The project leverages React for frontend development, incorporating styled components and Tailwind CSS to ensure a responsive design across all devices. Framer Motion is utilized for smooth animations, enhancing user interaction and visual appeal.
- The system includes robust authentication functionalities with login and registration processes. Regex is employed for validation, ensuring secure input handling and data integrity.
- The project achieves efficient state management by utilizing Redux Toolkit.
- Admin Dashboard: Provides comprehensive tools for managing students, teachers, courses, and administrative tasks.
- Teacher Dashboard: Facilitates lesson planning, grading, and communication with students and parents.
- Student Dashboard: Offers access to course materials, grades, assignments, and communication channels with teachers.
- Deployed on the Netlify platform, ensuring scalability, reliability, and ease of deployment through its continuous integration and continuous deployment (CI/CD) capabilities.
- Th live project can be viewed at **https://schoolmanagementsystem-ak.netlify.app/** , providing a hands-on experience of the application's functionalities.
- The project's source code is available on GitHub at **https://github.com/akashvishal2405/schoolmanagementsystem** allowing for transparency, collaboration, and further development by the community.
